

MERIDEN HARBOR BROOK BRIDGE REPLACEMENTS AND UTILITY
IMPROVEMENTS PROJECT
MERIDEN, CT

ADDENDUM NO. 2

LIST OF CONTENTS

- 1.) Requests for Information (RFI) Questions and Answers.
- 2.) Revisions to Contract Documents: None.
- 3.) Attachments: None.

1. REQUESTS FOR INFORMATION (RFI) QUESTIONS AND ANSWERS

Q-1: In the Pre-bid meeting it was mentioned that both bridges would be box units. However, in the bid schedule it says Prestressed Deck Units for both? Please advise and confirm design.

A-1: The bridge superstructure shall be constructed as shown in the plans. Both bridges consist of prestressed adjacent deck girders. The width and depth for the adjacent deck girders varies for each bridge, as shown in the plans.

Q-2: Please provide an estimated project value needed for the purpose of requesting the 10% bid bond.

A-2: Each bidder is responsible for developing their own project bid and the bid bond will be 10% of their bid.
