

## SECTION 05070A

### CATCH BASINS, MANHOLES AND DROP INLETS

Shall conform to Form 816 Section 5.07 with the following modifications:

#### **5.07.01 - Description**

*Add the following sentence after the last paragraph:*

This section does not include replacement of sewer manhole frames and covers.

**5.07.04** – Construction, reconstruction and conversion of catch basins, manholes and drop inlets will be measured as units.

*Delete the entire sentence “Replacement of tops, frames and covers will be paid for as a unit for resetting plus the unit for catch basin top or manhole frame and cover.” and replace with the following:*

Replacement of tops, frames and covers will be paid for as a unit for furnishing and installing the catch basin top or manhole frame and cover.

*Add the following sentence after the last paragraph:*

Concrete curbing damaged or removed to facilitate installation of new tops shall be replaced prior to backfilling.

#### **Modify the following:**

**5.07.05—Basis of Payment:** These structures will be paid for as follows:

*Delete the entire sentence “8. “Frames, Covers and Tops” when required in connection with reset units, will be paid for at the contract unit price each for such “Manhole Frame and Cover or (Type) Catch Basin Top”, complete in place, including all incidental expense; or when no price exists, the furnishing and placing of such material will be paid for as extra work. “ and replace with the following:*

8. "Furnish and Install Frames, Covers and Tops" will be paid for at the contract unit price each for such "Furnish and Install Manhole Frame and Cover or (Type) Catch Basin Top", complete in place, including all incidental expense including curb replacement.
